

Savage Creek Senior Men's Golf Club

Winter Rules - 2020

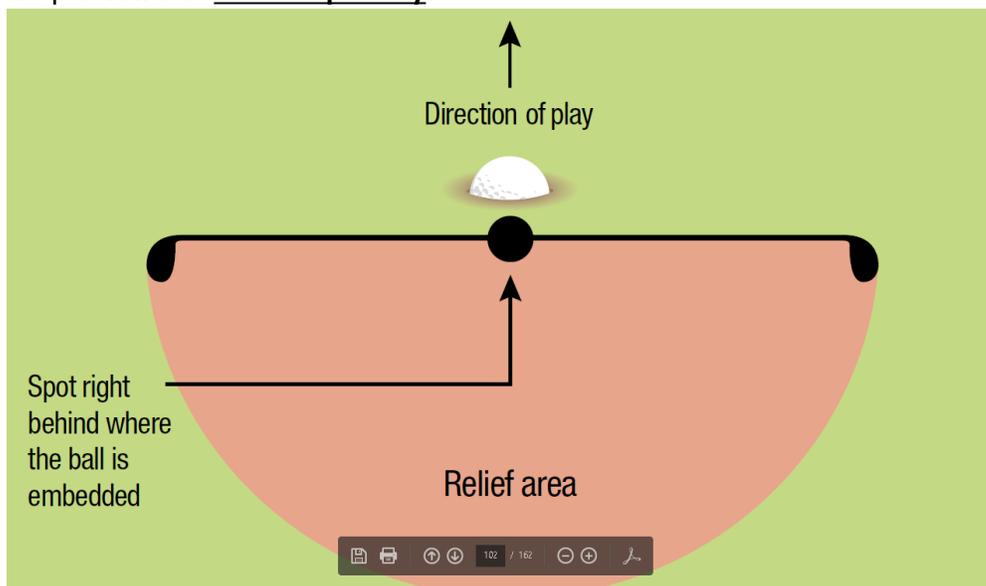

1. **Lift clean and place** as required, through the green. (no penalty)

This is 6" from where your ball lies, no nearer the hole.

"Through the green" means anywhere on the golf course, including rough, the only exception is if you are in a penalty area (sand trap, water etc.), or within one club length of a tree.

2. **Embedded ball rule – Rule 16**

Plugged lies, we will use the standard rules of golf, which is one club length no nearer the hole. But for our winter rules, if you cannot find your ball, but the foursome agrees that the ball was embedded, choose the spot where you believe it was plugged and drop a new ball **without penalty**.

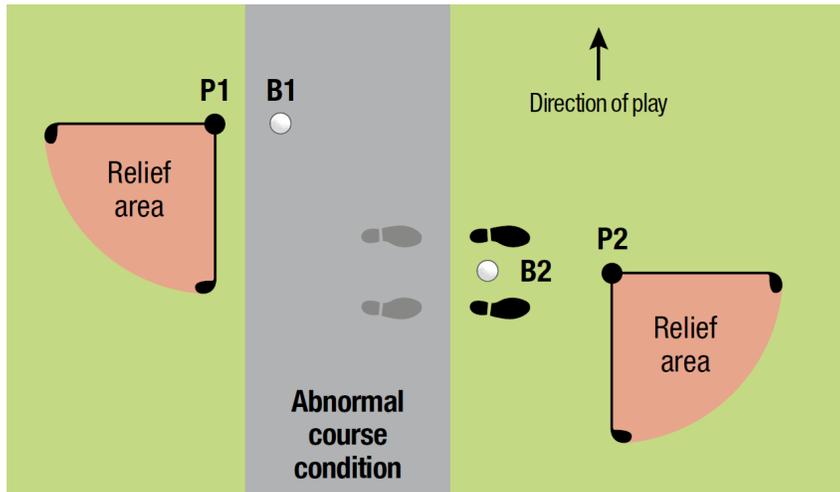

3. **Ball in the sandtraps winter rules:**

As our traps are not raked in the winter you have three choices.

- 1) Play the ball as it lies (no penalty)
- 2) Rake the spot where the ball was and place it in the raked area (no penalty)
- 3) Remove the ball from the trap (trap full of water as an example) and move it in a direct line back away from the hole, keeping where the ball came to rest in the trap and the hole. This option will always leave you a shot over the trap. (unless you choose to shoot away from the hole) . **(no penalty in winter)**

4. Casual Water

Use the standard rules of golf, drop outside the abnormal course conditions, no nearer the hole. (**No penalty**)

5. Driving Range Fencing

A ball coming to rest which is impeded by the Range fencing and/or guided wires may be placed at the first point of relief for stance and swing no closer to the hole – **no penalty**.
